## 2. How to Use the Application

1. Select number of players. If you select one player, then the you'll play against the computer. Otherwise, you'll play against another player.
2. On the next screen enter the player's name(s), select the number of rounds, and start the game.

Total rounds	Rules
One	The player that wins the round wins the game.
Three	The first player that wins two rounds wins the game.
Five	The first player that wins three rounds wins the game.
Seven	The first player that wins four rounds wins the game.

3. Click the "Start the game" button.
4. Player 1 chooses a shape by clicking it. Shapes are rock, paper and scissors as seen in the diagram. Once done, then player 2 chooses a shape. If against the computer, only player 1 will select a shape.
5. A round can result in a draw if both players select the same shape. If the game results in a draw, then the players will play a one-round game. Hence one tiebreaker rounds need to be played to display the winner. Clicking the 'Play Tiebreaker round' button will keep prompting the players to play a one-round game until a winner has been determined.
6. The winner of the round is declared and the shapes each player has selected are displayed. Rock beats scissors, scissors beat paper and paper beats rock.
7. The black button labelled 'PLAY NEXT ROUND' shows as the winner is not yet determined. Clicking this button will direct the players to play the next round.
8. Once the winner has been determined, then the black button will be labelled 'DISPLAY WINNER'. Clicking this button will display the game-winner.
